

# Take Control of Your Accounts Receivable with Proven Solutions From a Trusted Partner

How would your days in A/R be affected by results like these?

**35+%↑**

in accounts worked per hour

**45+%↓**

in average payer hold times

**60+%↑**

in recovery totals in a year

The right technology partner can get you there

## Finvi: Over 40 Years' Experience in Healthcare Revenue Cycle Management

With hundreds of hospital network and billing service provider clients managing over \$58.5 billion in net patient revenue annually, Finvi offers enterprise RCM technology that maximizes account representative performance and increases speed to revenue.

A leading provider of technology solutions for first- and third-party medical debt collectors, Finvi is a KLAS Revenue Cycle Unicorn thanks to our leading enterprise software solution for the accounts receivable management (ARM) industry, where 8 of the top 10 ARM agencies leverage our systems and expertise to drive their collections workflows.

With enhanced patient and payer engagement channels, payment processing, and cutting-edge AI technologies, our healthcare-focused suite of RCM solutions continues to grow and evolve with the industry—empowering RCM service providers to differentiate themselves in the marketplace and improve results for themselves and their healthcare partners.

Arm your team with the tools that are driving revenue cycle gains and breakthrough results across the healthcare industry. Learn more about our solutions, services, and client successes at [Finvi.com](http://Finvi.com).
