

# Take Control of Your Revenue Cycle with Proven Solutions From a Trusted Partner

How would your days in A/R be affected by results like these?

**35+%↑**

in accounts worked per hour

**45+%↓**

in average payer hold times

**60+%↑**

in recovery totals in a year

The right technology partner can get you there

## Finvi: Over 40 Years' Experience in Healthcare Revenue Cycle Management

With hundreds of hospital network clients managing over \$58.3 billion in net patient revenue annually, Finvi brings health systems and hospitals enterprise RCM solutions that maximize account representative performance and increase speed to revenue.

Finvi is a KLAS Revenue Cycle Unicorn thanks to our leading enterprise software solution for the accounts receivable management (ARM) industry, where 8 of the top 10 ARM agencies leverage our systems and expertise to drive their collections workflows. With a large majority of agency portfolios consisting of medical debt, we took the latest practices for collecting this debt type to develop our suite of healthcare-focused solutions, bringing healthcare providers best-in-breed technologies to optimize payer and patient collections.

Today, 5 of the top 15 largest health systems in the U.S. leverage our enterprise RCM solutions to optimize their revenue cycle processes and achieve breakthrough results. Learn more about our solutions, services, and client successes at [Finvi.com](http://Finvi.com)
